National Livestock Readiness Program (NLRP)

785-532-6193

nlrp@livestockreadiness.org

Effective animal disease outbreak response

A coordinated National Livestock Readiness Program (NLRP) provides a "one stop shop" for planning, training/credentialing, and information sharing between local, state, and tribal response entities

Intro to Ag Emergency Response Planning

This course is designed to provide an introduction to Agricultural Emergency Management. It is divided into four sections covering: Basics of Emergency Management; Basics of the U.S. Agriculture Industry; Additional Industry Segments; and Important Considerations for Agricultural Response.

Workshops

Workshop and course resources.

Livestock Emergency Response Planning Toolkit

Toolkit is designed to assist state, tribal, and territorial government
